Subject: an idea for your next hire

Hi [name],

Next time you're hiring, take a look at Treantly (treantly.com). They find full-time staff in the Philippines. You pick the person, they do payroll and HR. No long contract. Costs 40–60% less than hiring someone local.

Happy to intro you to the founders. They'll waive the \$500 setup fee and take \$500 off your first bill. I get a small referral fee, so we both get something.

[your name]

When they say yes: email Victor or Richard their name and company.
